- 

## EXPERIENCE

### Content Migrator - Rogerwilco

July 2025 - September 2025

- Migrated large volumes of English and Afrikaans content with high accuracy
  - Improved page layout and readability to match UX best practices
  - Ensured SEO-friendly structure, internal linking, and page optimisation.
  - Delivered updates within tight deadlines for major site releases.
  - Collaborated with developers and QA teams to ensure clean implementation.
- 

## PROJECTS

### SnipFlow | [\[Github\]](#)

- A snippet manager using JavaScript and Tailwind CSS with Firebase
- Improved developer productivity by reducing code search time by 70% via instant search
- Implemented offline access and real-time updates for seamless daily developer workflows.

### Budget Tracker | [\[Github\]](#)

- Designed a real-time tracking tool using Firestore data syncing
- Implemented CRUD operations and lightweight workflow automation

### Vs Code Theme | [\[Github\]](#)

- Real-time live preview of theme color changes.
  - Built-in theme exporting, allowing users to download VS Code-ready JSON files.
  - Eliminates the need to manually edit .json theme files.
-
